COMPUTER SCIENCE   **2020 - 2024**

UNIVERSITY OF INFORMATION TECHNOLOGY- VNU HCMC

The 4 years of studying at UIT provided me with a solid foundation in programming, as well as an understanding of the workflow in the software development field.

PROJECTS

CLONE THREAD APP SOCIAL MEDIA   **3/2024 - 4/2024**

On one's own

Link Deploy: https://guanghui-threads.onrender.com
Main features:
- Light/Dark mode
- Authentication (access token - JWT)
- CRUD posts
- Like, comment post
- Follow/UnFollow users
- Upload image (Clodinary)
- Freeze account
- Chat real time (Socket.io)

Technologies: React, Express, Charka UI, RecoilJS, MongoDB, Socket.io,...

PERSONAL BLOG   **5/2024 - 6/2024**

On one's own

Link Deploy: https://guanghui-blog.onrender.com
Main features:
- Light/Dark mode
- Authenticaion (access token - JWT)
- Login by Google
- Authorization (Admin, User, No login)
- CRUD post (only Admin)
- Markdown editor
- Like, comment Post, comment
- Upload image(Firebase).
- Statistic register users, posts, comments in last month.

Technologies: React, Express, TailwindCSS, Flowbite-react, Redux, Firebase, MongoDB,...

WEB SOCKET
Fundamental understanding of WebSockets for building real-time chat applications using Socket.io.

ENGLISH
Reading documents regularly, understanding tech terminologies.
